Surgivisio Instrumentation

● ecential robotics
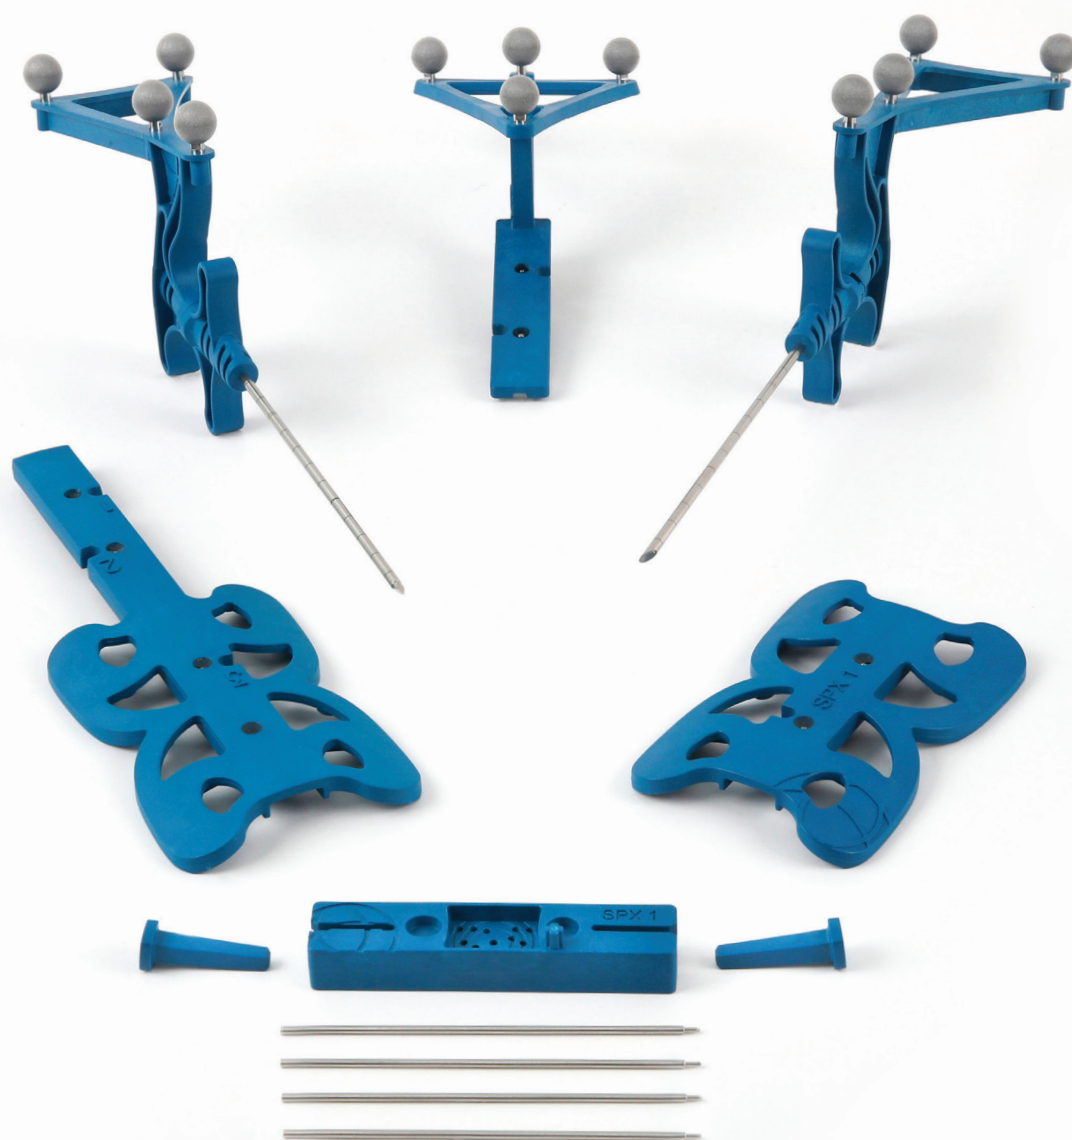

Features:

- Single-use
- Pre-calibrated in production
- Delivered sterile

Shouldered broaches for spinous process fixation

Broaches external diameter: Ø 2mm
Length: 100mm
Shouldering: Ø 1mm by 4mm

Patient reference + 2 wedges

3D imaging Phantom

3D imaging Offset Phantom

Patient tracker for navigation

## Navigated targeting needles bevel tip / trocar tip

Despite broaches, each instrument is identified by an identification card which can be inserted into the system. The instrument is automatically recognized.
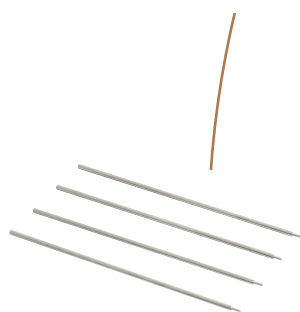

For each surgery:

Imaging

Patient reference + 2 wedges + 3D imaging phantom + identification cards

3D Imaging Set SPX1
A00018

Phantom SPX1 | Patient Reference SPX1

OR

Patient reference + 2 wedges + 3D imaging Offset phantom + identification cards

3D Offset Imaging Set SPX1
A00038

Offset Phantom SPX1 | Patient Reference SPX1

Broach Set (x4)

Broach set SPX1 (x4)
A00021

Navigation

Patient tracker + Navigated Targeting Needle SPX1, Bevel Tip + identification cards

Navigation Set SPX1, Targeting Needle Bevel Tip – 11G, 125mm
A00019

Trocar SPX1 | Patient Tracker SPX1

OR

Patient tracker + Navigated Targeting Needle SPX1, Trocar Tip + identification cards

Navigation Set SPX1, Targeting Needle Trocar Tip – 11G, 125mm
A00029

Targeting Needle SPX1 11G, 125mm, Trocar Tip | Patient Tracker SPX1

Additional Navigated targeting needles

Navigated Targeting Needle
SPX1, Bevel Tip

+
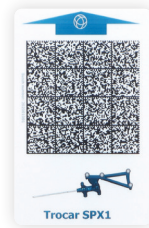

identification card
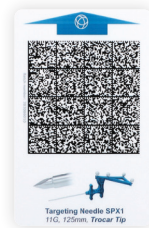

**Navigated Targeting Needle
SPX1, Bevel Tip - 11G, 125mm**
A00020

OR

Navigated Targeting Needle
SPX1, Trocar Tip

+

identification card

**Navigated Targeting Needle
SPX1, Trocar Tip - 11G, 125mm**
A00028

Protective covers

Remote panel sterile protective cover

C-arm sterile protective cover

Camera handle sterile protective cover
